  - **PHP** development in **Laravel**, **Symfony** and **Codeigniter**
  - Database creation and management in **SQL MySQL**
- **Frontend** development
  - **HTML/CSS/JS** layouts
  - Web design assisted by **Bootstrap/React/Angular/Vue** & **SASS/JQuery**
- **GIT** usage
- **Application** development
  - **C++** and **Python** development
  - **Java** development
  - Computer graphics in **OpenGL**
- Other
  - **Adobe** Creative Suite
  - **Google** and **Microsoft** office suites

Work experience:

McDonald's Crew Member *(2018 - 2019)*
One year of experience as a McDonalds Crew Member (27th location, Buenos Aires), working at the kitchen, register, and cleanup, which helped me develop teamwork skills and learn to stay calm in stressful environments.

Freelancer PC tech support *(2019 - currently)*
I use my experience planning, building, using and troubleshooting computer systems to provide PC tech support to the home or business.

Full-Stack web developer *(2020 - currently)*
Almost two years of experience maintaining MAYFLOWER ELECTRONICS' website, which started as a volunteer offer and ended up as a long-term stable job.

Languages:

- Native **Spanish**
- Native **English**
- Proficient **Japanese**
